VOLUME III, NUMBER 19 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA, THE COUNTY SEAT PAPER MARCH 25, 1929

CITY BOOKS WILL BE EXPERTED BY MCCORMACK

The long lapse of time since the city books have been experted will cease shortly as R. N. McCormack has been engaged by the city dads to audit the books of the various city officials. It is reported to be around thirty years since the job was done but the present task will doubtless not go back of the time spent by the longest server on the board or about four years. As a matter of good business the trustees are understood to consider having this done at regular intervals in the future.

The other main item of business coming up at the meeting of the board on Thursday night was asking city clerk Calanan to serve notice on the stockmen driving cattle and sheep through this spring that unless they kept them off the lawns and private property here that they would have to keep out of the city limits and take a detour. Good legislation.

The swimming pool committee reported progress and asked for more time which was granted.

The collections of the water department for the past month were $1217.25.

JENNY LIND MINING PROPERTY IS SOUGHT

The stockholders of the Jenny Lind Mining Company in a meeting last week at the company offices decided to sell the property on terms which had been offered by L. S. Wincapaw representing the Cooley Butler interests which have been bonding large holdings in the Grass Valley district.

JOURNAL SPEAKS FOR THE HYDRAULIC MINER

The following editorial appearing in Thursday's Auburn Journal published by Senator B. A. Cassidy is of interest:

A public hearing is to be held on the Seawell Hydraulic mining bill before the Assembly Ways and Means Committee next Monday night, in Sacramento. Two years ago the same bill introduced by Cloudman passed the Assembly and was defeated in the Senate by one vote.

Every effort should be exerted in behalf of this legislation and if it successfully passes the Assembly we pledge our sincere and wholehearted support in an effort to have the Senate concur in the action. If we all co-operate, there is every reason to believe that in the end; the bill will be made a law. We in the legislature will bend our efforts to that end.

MRS. J. R. DAVIS PASSES

Mrs. J. R. Davis, wife of Professor J. R. Davis of North San Juan passed away in Oakland yesterday. A. M. Holmes left for Sacramento this morning to meet the body and to take it to North San Juan. No funeral arrangements have been made.

ST. CANICES CHURCH

Eervices this week will be as follows for Holy Week:

Holy Thursday—Mass at 9 o'clock Procession, adoration.

Good Friday—Services in commemoration of our Savior's Death, begin at 9 o'clock. Stations of the Cross at 7 p. m.

Holy Saturday—Beginning at 8 o'clock, the Easter candle and Baptismal Wter will be blessed. Mass begin sabout 9:15.

Easter Sunday—Masses at 8 and 10:30. No evening services.

An attempted suicide by a hired girl in the Blair home at Sacramento nearly caused the death of the three young Blair children, who were asleep at the time. Mrs. Blair was formerly Miss Olive Calkins of Nevada City.

Mrs. C. Muscardini motored to Penn Valley Thursday for a visit with friends.

E. L. Egenhoff, mining engineer of the California Debris Commission, attended to official business here during the week.

MINING LOCATIONS ARE PLACED COUNTY RECORD

The following mining locations have been filed with County Recorder Sam J. Clark—

Trash Pile quartz in Grass Valley Mining District by J. H. Leary.

Irish American placer by Thomas F. Callaghan in Rough and Ready Mining District.

CAMPTONVILLE MINES ARE WAITING ON WATER

CAMPTONVILLE ,Mar. 23, (Nugget Exclusive Service)— There has not been a great deal of activity here in the mining field due to tne extreme shortage of water this season.

Hydraulic properties have done practically nothing, Indian Hill mine under F. W. Camp, has been able to pipe for four hours a day during the past few weeks, and has moved considerable dirt. They have a good prospect, and if able to continue with water, will have a slight season ahead of them. The Joubert property has not operated because of the water shortage; with a few good storms, they will still be able to get in a short season. Turner Bros and Henry Rabe, who put the old gravel property at Weeds Point in order also have been handicapped by the water shortage. Robert H. Deal, who has a very good gravel claim on Horse Creek at Lady Bug, has some good dirt out but has not been able to wash it.

The Halkyard mine, under the supervision of B. F. McNaught has been laboring faithfully, forging ahead with the tunnel, expecting to uncover soce very good gravel any day. They have done some very good work on the property,, and the community hopes that they will be repaid doubly for their labor. This section represents one of considerable rich gravel, and near to it, many thousands of dollars have been removed.

Allen Chester arrived a short time ago from the bay district and is prospecting the gravel claim of Jos. Rogers on upper Oregon Creek. There is already quite a tunnel on the property, and quite some gold has come from this stream, with the possibility good of striking some good ground.

The Bald Top Hydraulic property, which has been preparing for operations for the past three years ,so far has not run any dirt, and at the present time there is no one at the property. It is owned by F. B. Aldous of Los Angeles, and J. M. McMahon of Lodi, who is interested in the property, has been superintendent.

The Garden Valley Dredger after spending many months rebuilding the boat, has finished repair work and started to work, running two shifts at the present time. Most of the ground at this point has been worked, but with but about a year's running remaining. The Great Eastern Mining Company claim, north of the dredger property, owned by Messrs. Wm. Rowlands, Samuel F. Price, G. Williams, Ben Williams and Ed Price, is a very good stretch of unworked gravel, and it has ben said that there is a possibility of the dredge continuing on to that ground. It is more shallow and would be a trifle more difficult to work, but is said to be a very rich piece of ground ,and desirable for running by machinery, being too far away from water to be handled profitably by hand sluicing.

John Zaring is prospecting on Willow Creek region and his claim is taking on the appearance of one of activity. Like many other sections of this region, there are good possibilities of striking a good mine in these places; more good properties lay dormant and uncovered than those that have been found, and the real mineral activity period of this sectior is yet to come.

There will e a summons meeting of Court Garfield ,Foresters, this evening to elect delegates.

Alfred J. Bennetts of Sacramento came to Nevada City Friday and visited his mother, Mrs. N. W. Bennetts, who is quite ill.

John Boreni of Lake City was a visitor here Friday.

Easter rabbits, baskets, candies and novelties at Colleys. 17-18ch

1000 COPIES ONE ORDER SPECIAL MINING NUMBER

Nearly three thousand copies of the special mining edition of The Nugget have already been ordered which is some speed so far in advance of the publication date. An order for 1000 copies was receiver from Los Angeles Saturday morning. Two days previous an order for 500 copies and one for 150 copies were received in the mail while many smaller allotments have been ordered by individuals. Various civic organizations are placing orders for a plentiful supply so that the minimum edition of 5000 copies looks to be exhausted before publication date. As many will be printed above the 5000 set as will be necessary to supply the demand for the balance of the year.

Congratulations still continue to pour in on the publisher for the putting over of the idea of supplying authentic mining information in a condensed form for the investing public. With the increasing demand for information on our gold resources it became imperative that such demand be met in an effective way. Illustrations and maps are now being assembled for use in the edition. Articles dealing with the various mineral sections of this and Sierra counties are being prepared and placed in type. The issuance of the edition will entail a heavy expense as fine book paper is being used for the printing of the edition but the hearty cooperation shown has encouraged us to put forth our best efforts and get out an issue which will command instant attention.

The contributors of articles are people well able to express themselves and having a thorough knowledge of mining conditions here. The articles would look well in any mining publication. The type of articles used will thoroughly describe our mineral resources and production data for the many years that gold mining has been followed in this pioneer section of California.

If you have not already placed your order for copies, you should do so at the earliest opportunity so as not to be disappointed should the demand exhaust the edition earlier than onticipated.

NEW BOWLING LINEUP SET FOR THIS WEEK

A third tournament is to be run on the Elk's alleys commencing this evening and will run for but five weeks, each team meeting the other but once. Ghidotti, Trevithick, Leiter, Durbin, Lobdell and Penrose have been selected as captains by the committee and they will marshal their charges for the assault on King Louie.

The Ghidottis and Trevithicks tangle this evening, the Lobdells and Penroses tomorrow night and the Leiters and Durbins Wednesday night. The windup of the championship of the second tournament will be staged Thursday night following the dinner, between the Celio and Nickless outfits. This promises to be a hotly contested affair and will draw a large crowd of enthusiasts.

The lineups of the teams are as follows:

Ghidottis—Willoughby 170, Hoge 132, Breese 136, Ghidotti 133 and Scheemer 127.

Trevithicks—B. Carr 157, Jackson 143, Curnow 153, Hopp 133, Trevithick 109.

Leiters—Bigelow 156, P. Carr 146 ,Leiter 136, Goyne 131, T. R. Richards 126.

Durbins— Pierce 156, Hogan 147, Nickless 143, D. Richards 129, Durbin 123.

Lobdells— Tamblyn 156, Fouyer 147, Fortier 148, Lobdell 126, Bettles 120.

Penroses—Hegarty 155, Mobley 145, Penrose 135, Celio 133, Walling 131.

Adrian Torpie of Sacramento came up to ivsit his mother, Mrs. Thomas J. Torpie, who is in the Nevada City Sanitarium, recovering from a serious operation.

PLACER MINING TO HAVE INNING AT SACRAMENTO

There will be a hegira toward Sacramento this evening of supporters of the plan to restore placer mining by hydraulic methods to something of its former status. The ways and means committee of the assembly will hold a formal hearing at 7:30 in the assembly chamber at which time the Seawell bill will be discussed. James D. Stewart of Auburn ,who has geen in the front line trenches for many years, is expecting to have a large delegation on hand to help in the fight to get the bill out of committee.

It is up to our local interests who have the future status of gold mining at heart to make an effort to be present as large attendance bettokens interest and if the proponents of the measure stay at home they only put off the day when they can secure legislative support for their plans. Several machine loads are expected to go from Nevada City and Grass Valley is stirring up the proposition.

PENNEY STORE ATTRACTS MANY THRIFTY BUYERS

The opening of the new J. C. Penney store at 115 Mill street in Grass Valley marks a new era in merchandising in this county which is already attracting many thrifty buyers to the new store. Operating entirely on a cash basis and no deliveries, this company has developed a country wide service that makes for extremely rsaonable priced merchandise. The immense buying power of the organization is one of its strongest links.

The store was formally opened the past week and is already doing a large business from a wide territory. Mr. Eary Covey, the manager, reports the volume of business in the new store already exceeds his earlier expectations at the outset. He stated to a Nugge reprseenative that he was more than pleased with the reception that had been given the store since it opened its doors to the public and that he has come to make his home in Nevada county and will do everything in his power to promote the interests of Grass Valley and Nevada City at all times.

The Grass Valley store is number 1080 of the great chain of department stores located in towns from Maine to California. This number is being added to daily and since this store was organized there are now more than 1200. This number will be increased to 1500 by fall with sales reaching far into the millions.

The Penney organization is the largest consumer of merchandise in its line in the world and by buying direct from the factories eliminates the brokers, jobbers, wholesalers and traveling salesmen, which factors regularly add greatly to the cost of the goods by the time they are placed for sale. The system sells for cash only cutting all charge accounts among which are laways found some bad ones which the good ones must inevitably pay for. Sales are never held and comarative prices are not quoted.

The first advertisement of the Penney store will be found on page six of this issue and the store expects to use space generously to tell Nugget reader what it has to sell.

Mr. and Mrs. A. C. L. Larsen were up from San Francisco late Saturday afternoon to look after their mining interests in tihs vicinity. E. B. Klein accompanied them.

Spring is now supposed to be here but old Jupe Pluvius put on a white mantle for the early risers Saturday morning that showed how freaky has been the winter which is now lapping over into another season.

Mrs. Howard Douglass made her second broadcast over KGO Wednesday night and a number of local people enjoyed it immensely.

Chocolate decorated Easter eggs ta Colleys. 17-18ch

LARGE LEDGE IS CUT AT PIONEER MINES

A six foot ledge of good milling ore was cut into on the 70 foot level at the Pioneer the past week which gives much encouragement to Lassen and Gibson, who hold a bond and option on the property from C. C. Mitchell. The drift had advanced to a point 300 feet from the shaft when a round of shots opened up what has the appearance of an excellent strike.

Samples taken from the new shoot pan well in color and assays will be made to determine the values. A drift will be run on the 170 foot level to tap the shoot and determine its extent. The property lies adjacent to the famous Idaho Maryland which has produced so many millions in past years.

HYDRAULIC MINER IS EXTOLLED IN JOURNAL

The following editorial appeared in the Mining Journal of March 9th, entitled, "The Hydraulic Miner's Plea Deserves Attention":

The important points made by James D. Stewart ,sponsor for the hydraulic miners of California, are that although modern concrete dams will provide proper storage for mining debris, the situation of the dams is such that all other debris resulting from natural erosion or otherwise will be likewise stored; that the miner is deserving of consideration by both state and federal legislatures, such consideration not involving paternalism where the miner obligates himself to pay for the service rendered by public funds; that the hydraulic miner should, as a matter of right, be permitted to work or be reimbursed.

The sympathies of the E. & M. J. are with the hydraulic miner, who was the victim of summary legislation without the complementary legislation that would have allowed him to exist. When that legislation was enacted later the disintegration of the industry was so far advanced that it has existed since only on an extremely restricted basis. Private enterprise, except in the instance of the Bullard's Bar Dam, has failed to interest itself, principally because freedom from interference was not assured. Mr. Stewart believes that both state and federal governments should undertake the construction of the debris-restraining dams and to this extent encourage the rehabilitation of the industry. The fact that gold deposits on the watersheds of the Yuba and American rivers are of sufficient importance to promise substantial gold yields for several years should incite careful consideration of the ways and means by which such a development could be brought about. In the interest of diversified industry, legislators and business men should direct their attention to this problem of hydraulic mining and provide for an equitable solution fair to the hydraulic miner and to others directly and indirectly involved.

COUNTY FINANCES ARE SUBJECTED TO SCRUTINY

The expert retained by the grand jury, William Dolge, is now here making an audit of the county finances with relation to the amounts in the various funds. The grand jury is said to be considering the advising of a lowering of the tax rate.

Mr. and Mrs. Arthur W. Hoge are in Sacramento tonight for the meeting at the state capitol.

Mrs. Fred Heppner suffered a dislocated shoulder when she fell at her home early last week.

Mr. and Mrs. Charles Manker, Elwell Goering and Doris Warne went to Los Angeles to attend the funeral of Edward Nolan, which was held Friday morning. Mr. Nolan was on his way to the Neocene mine at Nevada City when he was killed in an auto accident near Bakersfield. Messrs. Manker and Nolan were associated and interested in the Neocene mine.

Homer Gould, Downieville merchant, was a business visitor here Tuesday.

TAHOE UKIAH TO BE RUSHED AS CONTRACT IS LET

With the opening of headquarters in the former Finngan offices on Pine street by the state highway commission, things are rogressing on the beginning of actual construction on the 12 miles contract let on Wednesday to C. R. Adams of Ashland, Oregon on the Tahoe Ukiah highway east from Nevada City. C. E. Thompson will be resident engineer for the commission during the execution of the contract which has a limit of 300 working days for its completion.

The engineers will set the stakes for the contractors at once and clearing of the right of way is expected at once. Adams bid $263,482, his bid being the lowest and was accepted by the commission which had allotted $300,000 toward the construction of this section.

The highway commission has stated that it will be ready to bring the Downieville highway to modern standards as soon as the federal government has completed the work between Downieville and Sierra City. It is also likely that the Tahoe Ukiah will be carried into Bear Valley with construction similar to the present contract as soon as the work is completed to Junction House.

MCCORMACK SUCCEEDS TO DEVELOPMENT POSITION

R. N. McCormack has been appointed by the directors of the Nevada County Development Association as secretary to succeed J. Earl Taylor resigned. Mr. Taylors' resignation had been in the hands of the organization for a number of months past, but he had been prevailed upon in view of his excellent past work, to retain the position until a fitting successor could be selected. Mr. McCormack's popularity as deputy county clerk, and his ability will make for a good service in the new duties.

MCMAHON LOCATES HERE IN PRACTICE OF LAW

J. M. McMahon, owner of the Bald Top mine near Brandy City and a lawyer of many years practice in San Joaquin county, has located in Nevada City and will practice law in the Wall offices on Pine street.

Mr. McMahon has a pleasing personality and with a back ground of long and successful experience should make for him a ready reception here. He has been in San Joaquin county several days this week closing up his practice there.

The Auburn golfers defeated the local club swingers yesterday on the Placer county course, 47 to 1. A sole point garnered by Percy V. Carr was the only showing made by the locals on the credit side of the ledger.

The many friends of Mrs. N. W. Bennetts will be sorry to learn that she is quite ill.

Court Reporter Miles D. Coughlin was an official visitor in Auburn Tuesday.

Miss Florence Genasci has secured a position with the J. C. Penney Company in Grass Valley.

Mr. and Mrs. T. L. Larsen were among those who are at Sacramento tounight to attend the hydraulic miners meeting at the state capitol.

William Howlett of North Columbia was a Nevada City visitor Friday.

Mr. Newton Blough has just come from the Nevada City Sanitarium, where he was operated upon March 9th. He is making a good recovery. Dr. R. F. Werner performed the operation.

Miss Minnie Brand spent a month in Sacramento with her cousin, Mrs. R. W. Gaylord, who has been quite ill.

Mr. and Mrs. S. Lee Leiter are visiting relaties anvd friends in San Francisco and Oakland.

Freshman Reporter .... John Doctor

EDITORIAL

With the beginning of spring we have "holy week", the season which commemorates the death and resurrection of Jesus Christ. The resurrection of Jesus Christ is especially observed on Easter Sunday, which comes at the close of "holy week". The word Easter is derived from the name of the Anglo Saxon goddess of Spring. Eastre or Ostara, to who mthe month of Eastur corresponding to our April, was sacred.

There arose an early dispute among the Gentile Christians, and the Jewish Christians as to the proper date for the celebration of the resurrection. The latter adopted the 14th day of the month, Nisan, while the former adopted the Sunday following as the day commemorative of the resurrection. A variation soon arose in the date observed among the different churches. But gradually with the adoption of corrected calendars, a uniformity has been attained.

In addition to the church observances we have many ancient pagan customs handed down to us. The latter were connected with the spring festival, celebrating the return of the goddess of spring, and signs of rebirth in the world. From the Norse peoples have come the popular Easter egg and the Easter rabbit legends and customs.

In accordance with these customs the respective churches of Nevada City always celebrate Easter with lovely programs. As members of the Nevada City student body we wish you all a happy Easter.

PRINCIPALS' CONVENTION

The annual Principals' Convention will be held in Oakland this year. Most of the sessions are to be held in the Women's Civic Auditorium and several special sessions in Hotel Oakland. It will last from Monday morning until Friday noon. All the high school principals are required to attend all the meetings each year. Mr. Isensee left Friday for Oakland.

BIRD CONTEST

The Nevada City high school has selected for its nomination of a state bird the California Valley Quail.

The results were as follows:

California Valley Quail	86
Western Blue Bird	20
Western Tanager	6

The rest were below 5 votes apiece.

This contest is being sponsored by Bert Hartwell of KGO of Oakland. The purpose of this contest is to find and select a state bird.

Nevada City has nominated the California Valley Quail, and if you listen to KGO at 6:30 o'clock any Thursday evening the bird call that we have chosen, may be given.

HONOR SOCIETY PLAY

On Tuesday evening the Honor Society were the guests of the local Lions Club at a dinner at the National Hotel. After the dinner the society entertained the men with the one act play entitled "Spreading the News" which had been given previously at the high school on March 15.

TEACHERS TAKE VACATION

The faculty of the Nevada City high school seem to be as happy over the week's vacation as the students themselves. They are all going to spend the week in the bay region.

Miss Leschinsky	Oakland
Miss Taylor	Berkeley
Mr. Kjorlie	Oakland, San Francisco
Miss Hoffman	Berkele
Mr. Pedersen	Oakland
Miss Whelan	....Vallejo, Berkeley, San Francisco
Mr. Isensee	Oakland

OYEZ! OYEZ! OYEZ!

On Monday, April 1, do not run to get The Nugget, as the big feature in this paper, "The High School News", will not be there.

HELD TRACK MEET

At two o'clock, Saturday, March 15, the annual track meet between Nevada City and Grass Valley was held. Since many of our boys did not appear, we did not have much of a chance to win.

GIVES PLAY

On Friday, March 15, the Honor Society of the Nevada City high school presented a play to the student body. They also sold bags of candy which was made by the members of the society. The admission fee to the play was ten cents. The candy was sold at the price of ten cents a bag. The Society made a net profit of twenty-one dollars. This money is for a scholarship fund. The money in this fund is to help some students who wish to go to college and are not able to pay their tuition.

JUNIOR MEETING HELD

The junior class held a meeting on Monday, March 18. The purpose of the meeting was to discuss plans for the Junior Prom. The problem set before the class is whether the Prom will be invitational or public.

MISS TAYLOR VISITS

Miss Taylor visited the Commercial Department of the Alameda high school, Friday. Alameda high school is known to have very modern wethods throughout its school.

NEW SCHOOL NEWS EDITOR

Thelma Boreham, a junior at the high school, is to be editor of the high school section of The Nugget during the practice and presentation of the senior play. She is doing this because she expects to be editor of the Quill, the school annual, next year.

JOKES

Mr. Pedersen—"Now do you understand how aviators find their bearings with a compass?"

Bernice C.—"Gee, the only compass's we've ever had in our house pointed to the north—I guess we'll have to get some new ones if we want to go in some other direction."

NORTH SAN JUAN JOTS

NORTH SAN JUAN, Mar. 23, (Special to The Nugget)—The Water Users Association held a dance in Solaro's hall last Saturday night. Owing to the number of dances given in the nearby towns it was not very well attended. All who attended however report a very good time.

Will Clark came up from Oakland last Saturday, returning the following day.

Mrs. Henry Huckins spent several days this week in Camptonville visiting her daughter, Mrs. Acton Cleveland.

Mr. and Mrs. Frank Harris and Harris Matthews went to Grass Valley last Saturday.

The Ladies 'Aid held an Easter Social on Thursday afternoon. After a short program relative to Easter dainty refreshments were served at a prettily appointed table in pink. Spring blossoms were tstefully arranged around the room.

Steve Solaro and son, Eugene, returned recently from a three weeks visit to Oakland.

The young people on the Ridge are practicing a play, "When a Fellow Needs a Friend", under the direction of Miss Carmel Reader. It is to be given in Solar's Hall, Saturday night, April 13th. About ten young people are taking part.

Mrs. J. J. McCullough went to the Bay Region for a short visit.

School election will be held Friday afternoon, March 29.

The Sweetland and North San Juan schools are planning an Easter Egg Hunt and picnic on Saturday, March 30 at the North San Juan school grounds. There will be a baseball game between the two schools in the afternoon.

Miss Clara Angiolini, who holds a position with the Bank of America of California, in San Francisco is spending two weeks here with her parents, Mr. and Mrs. M. Angiolini.

J. E. Deal returned Monday from a visit to Nevada City.

CAMPTONVILLE PERSONALS

Mrs. M. G. Calvin spent Tuesday visiting Mrs. Loenard L. Bishop at Oak Valley.

Mrs. Hawley Chatfield and daughter, Miss Wanda, accompanied by Robert Beame, of Pike City were in town Monday.

Miss Nellie E. Jones of Downieville passed through town Wednesday.

Mrs. Kate Hope Livingston arrived Sunday from Berkeley and commenced her school Monday, and her many friends are glad to see her able to be back. Her son, Alfred, brought her up and returned to Berkeley Monday.

Abe Lohman of North San Juan was in town Monday.

Joe O'Neill, Jr. visited in Sacramento recently.

JIM STEWART WRITES OF EARLY PLACER MINING DAYS

(By James D. Stewart)

Continued from last week

All of us who have lived in these hills for any length of time love them or we would have moved away to some other abode more to our liking.

There are, I vision, two classes of people reading these articles. One of these has come into our communities in the past twenty or twenty-five years, has found the people already there, and the climate, scenery and wholesomeness of our surroundings to their liking and remained. They have found occupations that were congenial and did much to rebuild and upbuild both our towns and countryside. From time to time as this hydraulic mining question has been revived, they have wondered what it was all about. Having confidence in their near neighbors and seeing their struggles to recoup their losses from the closing of the hydraulic mines, they have cast their lot with the resident of old and become his sympathizer and ally.

The other class is composed of the descendents of the pioneers who broke this wilderness and made of it a prosperous civilized place in which to live. This class are largely hydraulic miners or their descendents or those who profited by trading with them.

When the storm broke over hydraulic mining forty-nine years ago, our hill country was prosperous and its prosperity was reflected in the nearby valley communities. After the hydraulic mining was stopped, those settlements disentegrated and most of the population drifted away, taking with them the prosperity of both hill and valley.

These forty-nine bleak and bitter years have proven that if prosperity and happiness are again to find a place amongst us, we must be permitted to operate again by the hydraulic process. No other industry has arisen to take its place and no other means of unlocking this vast storehouse of treasure has been discovered. For a time, the bitterness engendered between the valley people on one side and the mountain people on the other was plainly hellish. There was no reason then and there is no reason now, why these two peoples should not have sat down together and found a solution of their problem. When the miner ruled the stall, he was intolerant of the other fellow's rights. By this action he bred intolerance into the people that were to oppose him bring about his downfall.

Outside of a few fights to the last ditch, bloody shirt waving politicians in Sutter county who are able to stir a few old timers into action by their constant yammerings and prodding of sore spots, the ill feeling over this matter has largely disappeared in the valley.

In the home of the hydraulic miner it has entirely disappeared. The last election is proof of this. Jerry Seawell, our Assemblyman, was born in Colusa. Some of the old timers remember Will S. Green of the Colusa Sun. His writings on hydraulic mining and miners were terse and to the point. The people of that vicinity were a unit behind him.

Now this son of Colusa, with scores of relative in the area that fought the hydraulic miner to a standstill, is sent to the Legislature by an overwhelming majority to represent the hydraulic miner. One of hi first acts is to introduce a measure for the relief of his old foe the hydraulic miner. He knows all about this question from both sides. Hi measure is certainly not one that will bring injury to those he loves and the land of his birth and he is endeavoring to put this relief measure on the statute books that hydraulic mining may again send its stream of gold into the coffers of trade.

In the Senate is Bert Cassidy, representing this same area of hydraulic miners. His father and brother are maong the most influential residents of the Yuba City area Their holdings are large. If hydraulic mining is a menace to this district, its resumption would spell run to them.

The hydraulic miners knew about Jerry Seawell and Bert Cassidy when they sent them to the Legislature. Where they were born, where their relatives lived. This is surely proof that the old bitterness of the hydraulic miner has disappeared. That he feels that his old enemy is a friends again and will give him a chance.

For a number of years the writer has been making friends in Yuba City and Marysville, and if you people of the hills want to do a service for the hydraulic miner and for yourself and community, drive down to the two cities occassionally and discuss your problems with the people there and ask them to visit you. In a little while a friendship can be built up between mountain and valley that these few disturbers cannot dent let alone break, and no one will pay as much attention to them as they would to the howl of a coyote, for the coyote's scalp is worth five dollars.

(To Be Continued)

CONSOLIDATED MINES HAVE MAMMOTH OUTPUT

With an average daily output of approximately $100,000 in lead and zinc ore the Consolidated Mining and Smelting Company's mine at Kimberly, British Columbia is the largest mine of its class in the world. Situated 210 miles north of Spokane the company's claims cover an area of about 40 square miles, much of the surface overlaid by masses of glacial gravel and debris.

The ore occurs in solid and continuous beds within the quartzites, with generally quite definite foot and hanging following the contorted bedding planes of the country rock and having an average dip eastward of about 22 degrees.

Its average lead content is 9.2 per cent zinc 7.6 per cent and silver about 3 ounces, making its value about $22 per ton, although there are rather large areas which are of lesser value on account of a preponderance of iron pyrrhotite.

This pyrrhotite ore however is now to be worked in conjunction with the companys large holdings of phosphate rock at Crows Nest Pass, 115 miles east of Kimberley. The excess sulphur in the ore to be utilized with the phosphate rock in the production of triple phosphate which is a concentrated fertilizer that by recent test on Canada wheat lands has increased the yield per acre from 4 to 16 bushels.

The company has recently set aside the sum of $13,000,000 for the development of the phosphate industry, which is but another unit in its vast field of investment in Canada.

A remarkable feature of the mine is the immensity of the underground openings, some of the stopes being 150 feet in height—in one instance 210 feet—with roof well out of sight of ordinary mine lights, yet standing intact without a stick of timber.

The mine is opened by a 10X12 foot tunnel two miles in length through which signal-operated, 30 car trains of 200 tons capacity are bringing out daily 4500 tons of ore. The cars are rapidly loaded by drag line through chutes built of 4 inch planking covered with half inch steel, the gates being operated by compressed air.

The heavy ore as it emerges from the tunnel, has the gleam of bright metal and the whole 30 cars are unloaded automatically to the bins in less than one minute. Cost of mining and milling is slightly under $3.00 per ton, while the duty per machine is 53 tons of ore.

From the crushing plant at the mine the ore is taken by rail to the concentrator at Chapman, 3 miles south, where the zinc and lead are separated by flotation and shipped 200 miles to the company's big smelter at Frail, B. C., which covers an area of 160 acres and employs 2800 men.

Here one sees a continuous stream of molten lead coming from the furnaces and being cast into ingots aggregating 450 tons daily; zinc cathodes turned out at the rate of 300 tons a day, along with 20,000 ounces of silver, which at times is corded up in the vaults to the extent of $40,000 most of it shipped to China.

Cadmium, a byproduct of zinc and worth about $1.00 a pound is produced at the rate of 48 tons

SAVING OPENS THE DOOR TO HAPPINESS

People who idle away their time are never happy. Most of the discontent in this country is fostered by the lazy men who do no work but who criticise honest effort. They have the key to the poorhouse door in their pocket, although they may not know it. Eventually thew may have occasion to use it.

Thrift and industry on the other hand make people happy These are the keys to riches, although the path may be long and progress may be slow. A savings account really does open the door to happiness, and all the time that you help it grow you are getting an unconscious pleasure that helps to keep you satisfied.

If you are not among our large family of people who enjoy the thrill that savings brings, the opportunity is yours merely by taking advantage of it. In these days it isn't difficult to open an account. Even a dollar deposited in good faith with a desire to increase it reguarly is welcomed at this bank.

NICKLESS CREW BREAKS INTO FIRST PLACE TIE

The closing week of the Elks bowling tournament saw the Nickless sharpshooters break into a tie for first place honors with the Celios who have been flirting with the top rung for the bulk of the time. The Nickless crew annexed three points and lost the deciding point by but five pins which shows they were out for blood. The Celios were crearly off their feet in the mere matter of mowing down the pins and their opponents had an easy time of it. The tie is to be rolled off to determine top notch honors.

In the team standings the Celios have won two more games and have 700 pins the advantage of the Nickless outfit but they fell down at the crucial moment after coasting along all season and let the golden opportunity slip away from them. Penrose with 190 in the opener and Curnow with 198 in the closer paved the way for the Nickless triumph. Penrose by his work raised his average five pins while Curnow romped into seventh place in the indivivdual averages.

The Richards Butchers staged a real session with taking four points from the Goynes who sank into a tie for cellar honors. Tamblyn shot another poor sessin, dropping his average four pins and going into a tie for fourth place in indivdual rank after resting securely in second place two weeks aego. Fouyer put a nice windup to a good season's work by rolling 539 pins for second high totals of the week.

The Kopp Bakers went into third place by taking three from the Schecmers who sem content withe bottom of the ladder. The Scheemers started off bravely by taking the first game by a good margin but they did all their heavy work in that session.

High individual mark for the week goes to Walter Hegarty who shot 553 pins and took a tie for third place for individual average and third piace for high three game total. His score of 223 in the closing [illegible] his game for the season. The first game pulled down what would have been an excellent eve[illegible]

The Season Summary

Casting up the figures for the season work shows some intersting things. Seven of the bowlers have gotten in the 150 class and better while the rest are strung out in a long line in the 140s, 130s and 120s In the individual averages will be found the average with which each bowler started and also the average with which he finished.

Only one bowler succeeded in annexing 100 strikes and these were made in 27 games. Below this figure there is a wide margin. Tamblyn is in second place with 85, Curnow third with 81, Fouyer fourth with 72, Hogan fifth with 64 and Percy Carr sixth with 63.

nI the spare department but five have been able to reach the century mark. Curnow is in the lead with 114 of the secon dshotters. Tamblyn is in third with 105 and Bigelow in fourth with an even century. Breese fell just one short while Fouyer and P. Carr tied at 98 each. Others in the 90 class were Leiter and Celio.

The scoring of the doubles, triples, quads, quins and se's shows the following:

Doubles—Willoughby 13, Tamblyn 11, Curnow 8, Hogan 8, Hoge 8; Ghidotti 8; Lobdell 8, Kopp 7, Bigelow 6, P. Carr 6, Nickless 6 Pierce 6, Hegarty 6, Mobley 6, Leiter 6, Goyne 6, Penrose 6; B. Carr 6, Fortier 5, Fouyer 5, Jackson 5 Breese 5, Walling 5, T. Richards 5, Scheemer 4, D. Richards 3, Celio 3, Bettles 2.

Three strikes in a row—Curnow 5; Willoughby 5; Bigelow 3, Tamblyn 3, Nickless 3, P. Carr 2, Leiter 2, Goyne 2, Ghidotti 2; Penrose 2 D. Richards 2; Bettles 2; B. Carr 2 Trevithick.

Four strikes in a row—Willoughby 2; Bigelow, P. Carr, Hegarty Pierce, Mobley, Ghidotti, Celio.

Five strikes in a row—Kopp, Willoughby, Trevithick.

Six strikes in a row—Willoughby 2.

Nevada City to Sacramento and return, sold every day, limit 14 days, $4 50; from Grass Valley, $4.00.

CONSOLIDATED MINES

Continued from page three

monthly. Formerly lost in the process of refining this metal is now adding over a million dollars a year to the receipts. About 2500 ounces of gold is also produced monthly as well as a considerable tonnage of antimony. Consolidated's future ore has been partially outlined by diamond drilling to the extent of 30 30 million tons but it is conceded by geoligists and engineers that this is but a part of the ore that will e later developed in depth.

Controlled by Canadian Pacific Consolidateds 600,000 shares of stock now has a market value of 330,000,000. The company is now training a crew of its employees in the air service in order to carry on its pospecting in inaccessible areas of northwestern Canada which is becoming the greatest mining field on the American continent. Manitoba and Ontario Provinces are developing some wonderful mines, among which Sherritt Gordon and Hudson Bay are the most outstanding, both capatilized at 40 to 50 millions, although production can not be started for two years to come. Railroads are rapidly being extended into this territory but this past winter caterpillar tractor trains carrying 110 tons to the trip have been hauling supplies and machinery over the snow. These same trains are kept running continuously, reserve crews sleeping in the caboose trailer at the rear. The aveage speed is 3 miles per hours. Practically no hauling can be done in summer on account of the marshy condition of the country.

Diamond drilling has taken the guess work and risk from mining in this region, for with these immense lodes outlined and sampled by the drill, mining becomes a business where profit depends wholly upon economical methods of extraction and treatment of ore.

Ewd. C. Uren.

He missed the job because he had no telephone

John Carney is a carpenter out of a job. He has no telephone because he feels he can't afford one.

Yet yesterday Hancock & Hancock, the contractors, wanted John Carney. They couldn't get in quick touch with him because his name wasn't in the telephone directory. So they hired another man.

Who can afford to be *without* a telephone?

Mother!
Child's Best Laxative is "California Fig Syrup"

Hurry Mother! Even a fretful, peevish child loves the pleasant taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

SAME PRESCRIPTION HE WROTE IN 1892

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as today. People lived normal lives, ate plain, wholesome food, and got plenty of fresh air. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings.

The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe bowel stimulant.

This prescription has proven its worth and is now the largest selling liquid laxative. It has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds, fevers. At your druggist, or write "Syrup Pepsin," Dept. BB, Monticello, Illinois, for free trial bottle.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

PHILLIPS Milk of Magnesia

After all, what is the most important thing in baking?

Is it measuring and mixing ingredients? Is it selecting *certain* ingredients? All Home Economists know that after all, the most important thing is the correct oven temperature.

For almost anyone using care can measure and mix good ingredients accurately and follow a tested recipe. But in the baking—that's where all your best efforts meet the real test.

Today, leading Home Economists are turning to a device that keeps the oven at any temperature. It is called the Oven Heat Control and is a part of the new Gas Range.

See these new Gas Ranges at your dealer's. Or phone or call at our office.

FRENCH CORRAL ITEMS

FRENCH CORRAL, Mar. 23,(Special to The Nugget)— Well, the 21st has passed. and although dark clouds made dire threats, the old time equinoctial storm did not come to us. Just a light sprinkle of rain in the evening was our share in French Corral. Our farmers are all busy with plowing and sowing and late pruning and spraying and all the work attending the season, for spring is surely with us. With beautiful blossoms of fruit and flower, which the little humming bird has already found, the wild flowers and grass (blessed grass!) on hillsides, and meadows, the budding of our foret trees giving promise of summer shade; the fragrance of manzanita and chaparral, wafted from our hillsides at eve; the twittering of smaller birds; the croaking of frogs, which means water somewhere, the golden poppy, our state flower, in field and wayside (and it certainly is in perfection supreme in French Corral, and on the San Juan Ridge). All seems to be working in unison to form one great scheme and give promise of better things to come. What a joy to be living among our beautiful hills! When we look at the beauty of it we must feel that, it is a foretaste of Paradise.

This thought of working in unison brings another, of the accomplishment of one great scheme relating to the San Juan Ridge. In the effort of the S. J. R. W. A. to get water on the San Juan Ridge a large debt was created, and this debt is still confronting us. Many who have given their service are waiting for and needing their money While we are trying hard to help ourselves, our efforts so far have not been a success financially. The thought just comes to us, that if every native, and ex-resident of the San Juan Ridge would unite in one scheme of assitance and just enclose a dollar bill in a letter, and send to the chairman or secretary of the San Juan Ridge Water Association how quickly this debt could be paid. Some, yes many of our pioneers and their children, and grandchildren can be found throughout the s— well, we were going to say state, but as memory darts around we can better say globe, for they are simply multitudinous! We can boast with perfect truth, that the San Juan Ridge has given to the world some of the very best citizenry. It seems that most anyone could spare a dollar, so let us send out this appeal to the ex-home folks trusting that they will respond. While we know we are intruding on the space and time of our good "Nugget" we feel sure that it is behind us in every effort of assistance. Trusting that The Nugget will forgive our presumption, we will record the "comings and goings" of the past week.

The repair work on Pine Grove reservior was finished last Friday.

M. O'Connor of Birchville made a trip to Pleasant Valley Friday to bring his sister, Miss Theresa, who is teaching school at that place, to pend the week's end at the family home.

Mr. and Mrs. W. Wright of Pleasant Valley were Saturday visitors.

Miss Frances Moulton, who has a position with the Motor Vehicle Department of Sacramento came up Saturday to spend the week end with her parents. Her sister, Louise, accompanied her from Nevada City.

While the dance given by the S. J. W. A. in San Juan the night of the 16th was not a success financially we are sure those who attended must have enjoyed the good mucis give by the Imperial Orchestra of Alleghany, and also the never failing good "eats".

Mr. and Mrs. Thos F.ogarty of Marysville and Mr. and Mrs. Verne Fogarty and baby of Yuba City were Sunday visitors.

Ralph Thomas of Hammonton visited his parents in Birchville Saturday and Sunday.

Mr. and Mrs. Henry Harris of Berkeley, Mr. and Mrs. Harry Moynier of Oakland, and Mr. and Mrs. A. Kneebone and children of Bridgeport visited relatives, the Browning family, Sunday.

Chas. Buhl and daughters, Happy and Evelyn, of Browns Valley visited the Clerkin family Sunday.

W. P. Clerkin went to Browns Valley Sunday to spend several days in looking after his cattle.

Mr. and Mrs. Jas. Phelan and brother, Jack, and Mrs. Phelan's mother, Mrs. Flynn, were visitors from Tyler Sunday. Joe Swazey accompanied them on their return trip.

Clyde Browning, who is attending high school in Nevada City spent the week end with his parents at this place.

Mrs. W. E. Moulton, who has been confined to the Sanitarium at Nevada City, has returned to her home in French Corral .She is recovering nicely from the effects of the accident caused by a gun shot wound. She will however have to make a few trips to the doctor for treatment.

H. Kitts of Nevada City, who deals in the Watknis Goods made a trip to French Corral Thursday.

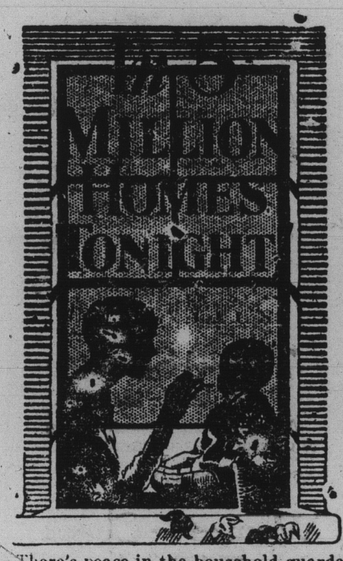
Misses Ursula and Carmel Reader of Sweetland, accompanied by R. McCullough, were visitors Thursday evening. On their return they were accompanied by Miss Barbara McMinn. The young ladies are working hard on a play that is to be presented at San Juan, April 13th. It promises to be a very interesting event.

Mrs. A. Browning and Miss Millie Clerkin went to Nevada City Thursday evening to attend the meeting of the Women of Women of Woodcraft, of which lodge both are members.

Mr. and Mrs. Orrin Dubois of the Murchie mine while motoring to Grass Valley suffered a mishap when a large rock thrown up by a passing car chashed through their windshield. A few scratches were all they received which was fortunate.

Mr. and Mrs. C. E. Gaus of North Bloomfield were business visitors in Nevada City early in the week.

Joe Deal of Camptonville spent a few days visiting in Nevada City.



There's peace in the household guarded by Castoria. Peaceful sleep for Baby, uninterrupted rest for Mother. For a few drops of pure Castoria will quiet any fretful infant. Or put the little one back to sleep when there's an upset during the night.

Parents, don't try to do without good old Castoria! It isn't fair to the baby and it makes things hard for you. You can't give Baby medicine meant for grown-ups—or shouldn't! Castoria is the solution. It is always safe. It always does the work. And although it acts as swiftly as an opiate or a narcotic, it contains neither. *Castoria is purely vegetable.* Give it whenever there's constipation, colic, diarrhea.

No less than five million modern mothers have come to depend on Castoria, for twenty-five million bottles were bought last year! Get yours today; don't wait for some night when it's needed, and the drugstore is closed!

Children Cry for Fletcher's CASTORIA

THERE is nothing that has ever taken the place of Bayer Aspirin as an antidote for pain. Safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get real Bayer Aspirin (at any drugstore) with Bayer on the box, and the word *genuine* printed in red:

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

SUMMONS

In the Superior Court of the State of California in and for the County of Nevada

T. C. BIGELOW, Plaintiff,
vs.
W. S. BIGELOW, and all persons unknown who have or claim any interest in or lien upon the real property hereinafter described, Defendants,

The People of the State of California send greetings to: W. S. BIGELOW, and all persons unknown who have or claim any interest in or lien upon that certain real property situate and being in the County of Nevada, State of California, and more particularly described as follows, to-wit:

All that portion of the East half of Section Thirty-six (36) Township Eighteen (18) north, Range Eight (8) East, M. D. B & M., described as follows, to wit:

Beginning at a point at North 31° 31' West 2575 feet from the South East corner of Section 36 Township 18 North, Range 8 East, M. D. M., thence true bearings, North 33° 45' East 385.44 feet; thence North 64° 00' East 283.80 feet to a 18 inch pine; thence North 46° 27' East 167.64 feet; thence North 33° 41' East 135.30 feet; thence North 3° 18' West 136.62 feet; thence North 58° 00' West 186 12 feet; thence South 84° 45' West 157.08 feet; thence North 4° 40' East 99.00 feet to a point; thence North 13° 00' East 818.40 feet; thence South 72° 00' East 665.94 feet; thence South 18° 00' West 2146.32 feet; thence North 69° 42' West 613.92 feet; thence North 264.00 feet to the place of beginning; excepting therefrom so much thereof as lies within the exterior boundary lines of Mineral Lot No. 40 known as the Lucky Joe Extension

Subject to that certain Right of Way reserved in deed executed by Wright Shaw to J. G. Hall, dated October 22, 1891, recorded February 10, 1892 in Book "78" of Deeds at page 337 et seq., Records of Nevada County.

You are hereby directed to appear and answer the complaint in the action entitled as above brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons, if served within said county, or thirty days if served elsewhere, and you are hereby notified that unless you appear and answer as above required the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract or will apply to the court for any other relief demanded in the complaint, including the partition or sale of the real property hereinbefore described.

Given under my hand and the seal of the Superior Court at Nevada City, State of California, this 5th day of February, 1929.

GEORGE COUGHLIN, Clerk,

Date of First Publication, February 11, 1929.

John H. Obermuller has purchased a tract of land near Lake Vera from Mr. and Mrs. L. C. Rickard. He also purchased a piece of land from the Norton estate recently which adjoins the Rickard property.

Mrs. W. Wasley of Gold Flat is home from a visit with her mother, Mrs. Green in Oakland. Her mother still continues quite ill.

LEGAL NOTICE

SUMMONS
No. 5713

In the Superior Court of the State of California, in and for the County of Nevada.

ECHO M. GOODWIN and LUL GOODWIN, his wife, Plaintiffs,
—vs—
JOHN W. O'NEILL; A. A. CHARONNAT; I. C. LINDLEY, S. T. ALLEN; NEVADA IRRIGATION DISTRICT, a corporation, AND ALSO ALL OTHER PERSONS UNKNOWN CLAIMING ANY RIGHT, TITLE, ESTATE, LIEN OR INTEREST IN THE REAL PROPERTY DESCRIBED IN THE COMPLAINT ADVERSE TO PLAINTIFFS' OWNERSHIP OR ANY CLOUD UPON PLAINTIFFS' TITLE THERETO, Defendants.

Action brought in the Superior Court of the State of California, in and for the County of Nevada.

W. E. WRIGHT, Attorney for Plaintiff, Nevada City, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO: JOHN W. O'NEILL, A. A. CHARONNAT, I. C. LINDLEY, S. T. ALLEN, NEVADA IRRIGATION DISTRICT, a corporation; and also all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to Plaintiffs' ownership, or any cloud upon Plaintiffs' title thereto, Defedants.

You and each of you are hereby directed to appear and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within Ten (10) days after the service upon you of this summons, if served within this County, or within thirty (30) days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required the said Plaintiffs will take judgment against you for any money or damage demanded in the Complaint as arising upon contract or they will apply to the Court for any other relief demanded in the Complaint.

The said action is brought by the above named Plaintiffs against the above named defendants, and each of them, to quiet Plaintiffs' title to the land and real property described in the Complaint on file in said action and hereinafter particularly described and to determine the adverse claims of the above named defendants, and each of them, and of all unknown persons to, and clouds upon the title to the said real property and the whole thereof pursuant to the provisions of Sections 749, 750 and 751 of the Code of Civil Procedure of California, and that said real property is situate, lying and being in the County of Nevada, State of California, and is particularly described as follows, to-wit:

All those certain lots, pieces or parcels of land situate, lying and being in the County of Nevada, State of California, and bounded and particularly described as follows, to-wit:

The North West quarter (NW ¼, the West half (W½) of the West half (W½) of North East quarter (NE¼); the North Half (N½) of South East quarter (SE ¼) and the South West Quarter (SW¼) of South East quarter (SE¼) of Section Eleven (11), Township sixteen (16) North, Range 9 East, Mt. D. B. & M.

The object of said action is to obtain the judgment of the Court against said defendants and each one of them, known and unknown as follows:

That all adverse claims to, and all clouds upon the title of plaintiffs to said real property or any and every part thereof be determined by the judgment and decree of said court, and that it be decreed that plaintiffs are the sole owners in fee of said real property and the whole of said real property herein described, being the same real property described in the Complaint of Plaintiffs on file herein and that plaintiffs are in possession of the property and entitled to the possession of the said real property, and the whole thereof, and that the defendants have not, and that no one of said defendants, including the unknown persons made defendants herein, have any right, title, estate, lien or interest of any kind whatsoever, in or to or on the said real property or any part thereof, and that said defendants, and each and every one of them, known and unknown be forever debarred, enjoined and restrained from making or asserting any claim whatsoever in or to said real property, or any part thereof, adverse to plaintiffs, and that the title of said plaintiffs in and to said real property and the whole thereof be forever quieted and adjudged good and valid, and for such other and further additional order, judgment, decree and general relief as is meet and proper in the premises, and for costs of suit.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Nevada, this 14th day of January, A. D., 1929.

GEORGE COUGHLAN,
[SEAL] Clerk of said Superior Court.

First Publication—January 28, 1929.

LOST ON BANNER MOUNTAIN

Misses Esther and Jessie Marshall with a party of friends ventured on a trip to Banner mountain last Monday. Everything went fine and all were having a happy time. Miss Esther thought she was the leader and was slightly ahead of the others. She lost her bearings and became separated from the others. The recent snows had bent all the young pines and brush down and the poor girl had a hard time working her way through the woods after dark. She is unafraid and the others waited until dark for her, then thinking she had taken another way home, they returned to Grass Valley. When they discovered she had not returned they reported it to the officers, who immediately formed posses from Nevada City and Grass Valley to search for the missing girl. At 9:30 she appeared at home, having walked in. Her father was nearly prostrated with fear and anxiety. Old mining shafts and a night in the open these cold nights would bring serious results.

MRS. PHIL SCADDEN IS BIRTHDAY HOSTESS

Mrs. Philip G. Stadden was hostess at her Coyote street home Thursday afternoon in honor of her natal anniversary. The members of the birthday club and several invited guests made up the party which made merry during the afternoon hours. Games were played and the serving of dainty refreshments brought an enjoyable afternoon to a regretful close as Mrs. Scadden is a charming hostess.

Mrs. W. H. Martin, who fell at her home Thursday, is resting easier at the Nevada City Sanitarium.

THE SOCIAL WHIRL

COLLEGIANS BANQUETED THURSDAY NIGHT

A meeting of university and college graduates was held at the National Hotel Thursday evening with Raglan Tuttle as toastmaster. Fifty grads and a number of friends gathered about the banquet board to renew old college acquaintanceships. Eighteen schools were represented.

The committee of arrangements consisting of Mesdames Greba Wehe and Robert T. Ingram, Misses Agnes Hoffman, Catherine Hogan and Olive Paine and Harold Biggs provided tastful decorations in violets and jonquils for the tables. Musical numbers were furnished by an orchestra from the Grass Valley high school, Mrs. Jack Wolff and Miss Lena Read, while Miss Hoffman gave a reading and Mrs. Ingram a humorous recitation. Other speakers were Fred M. Miller and George L. Jones.

Judge Tuttle was named president of the organization for the coming year succeeding Harold Biggs.

CHAMBER COMMERCE DANCE POSTPONED TWO WEEKS

The annual dance of the Chamber of Commerce has been postponed from April 5th to April 19th on account of other activities in conflict. R. R. Goyne is chairman in charge of arrangements.

Miss Mary Ruth Arbogast of Blue Tent has accepted a position as operator at the local telephone exchange.
